### Plumbing Piping

Under accessible kitchen sinks are required to be insulated. **HANDY-SHIELD®** Safety Covers comply with 2010 DOJ/ADA Standards for Accessible Design 606.5, Kitchen Sinks - 804.4; ICC/ANSI A117.1, (sec. 606.6), Kitchens - 804.4, Residential Multi-Family 1003.12.4.4 and 1004.12.2.1, and Product Standards ASME A112.18.9 and ASTM C1822-15. Whether accessibility is required on a commercial or residential project these guidelines apply.

### Fire Performance

Fire safety for both commercial and residential buildings is a critical design requirement and is provided for in ASTM C1822-15. It is especially vital for hospitals, assisted living, convalescent homes, schools, and dormitories etc. where High-Risk Groups such as the Disabled, Children or the Elderly require assistance for egress. **HANDY-SHIELD®** Safety Covers offer a Superior PVC Fire-Rated Material that is tested to Building and Fire Code Approved ASTM E-84 /UL 723 and is rated "Class A Material" with a 25 Flame and 450 Smoke Rating meeting ASTM C1822-15 Type I, and IAPMO PS 94-2012.

### Increased Access and More Economical

**HANDY-SHIELD®** Safety Covers offers a complete line of under-sink solutions that are both economical and install quickly with Velcro. These covers eliminate the high cost of expensive custom cabinet materials and labor to cover piping for accessibility required installations. **HANDY-SHIELD®** Safety Covers will increase under-sink access compared with other systems.

### Superior Material with Color Choices

**HANDY-SHIELD®** Safety Covers are made from PVC Plastic Material that features a High-Gloss, Smooth-Finish Surface, Anti-Microbial, Anti-Fungal inhibitive properties and UV long-term, material protection. Your customers have four colors to choose from.

Colors Available

White

Gray

Almond

Black

### A Full Line to Complete Your Project

**HANDY-SHIELD®** Safety Covers give your jobs a Professional appearance. Waste Disposal Covers products are designed for easy maintenance and quick access to troubleshoot disposal jams and power switch reset buttons. The line offers a: Single Cover (model 3071WD-N fits over Badger 1 & 5), or a Kit (3071-WD-333 fits over Badger and includes a 3011 P-Trap Cover), or a larger diameter Kit cover (model 3071WD-P37 fits Pro-333/SS/77 and includes a 3011 P-Trap cover).

### Larger Sizing

Larger diameter drainage piping requires a larger size cover for accessible kitchens lavatory or school-required sink installations. **HANDY-SHIELD®** 2" P-Trap Cover's large-dimension design makes ADA protection and installation possible.

### Extra Clearance Installations

In certain installations, extra clearances are required for under sink areas. **HANDY-SHIELD®** Bar/Sink Offset Covers are created for these types of protection requirements. The Bar/Sink Cover consists of two overlapping covers that protect from contact with drainage piping.
